Work Experience

Pegasystems

June - August 2014

Software Engineering Intern

Worked as a member of a front-end Web Development Scrum team. Implemented solutions to reduce style sheet size and redundancy.

Worcester Polytechnic Institute

August 2013 - Present

Senior Assistant

Held office hours, instructed labs, and graded exams and homework for WPI's computer science department.

Sandwich High School

January 2010 - August 2011

Computer Technician

Assisted faculty with improvising solutions to common problems related to technology.

Related Course Work

CS 4233	Object-Oriented Analysis and Design
CS 3733	Software Engineering
CS 4513	Distributed Systems
CS 4432	Database Systems
CS 3013	Operating Systems

Recognition

Outstanding Software Team Member

For performing beyond expectations and demonstrating great comfort in working with clients and peers to produce quality software.

Web Design II Project Leadership

In recognition of success in leading a group of peers in designing and developing a new website for a local elementary school.

Outstanding Technology Support

For outstanding performance in providing technical support under elevated pressure.
